

A Qatar based government organization whose mission is to provide administrative development, labour and employment and social protection of its citizens.

Business Challenges

Issues with the UI of their HR systems

Responsiveness of web & mobile applications

Cherrywork® Human Experience Management (HXM) for government organization

Solution

- Migration of existing applications to SAP Cloud Platform to build out modular and Scalable components
- Platform migration to allow enhanced flexibility and easier maintenance
- Revamped the existing HR applications and built a native mobile application for Android and iOS with Offline functionality
- Unified inbox for approvals has been Implemented
- New HR processes have been built using Fiori suite

Outcome

- Highly responsive, intuitive, elegant and fast applications available across different devices
