

Viatris is a global pharmaceutical company committed to setting new standards in healthcare and providing 7 billion people access to high quality medicine.

## Business Challenge

Lack of end to end visibility

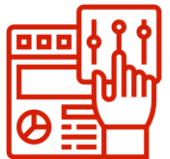

Paper based, time consuming process of data recording

Lack of timely alerts and notifications to the technicians & managers

Manual process to update data in SAP ECC post calibration

Custom UI screens based on business needs

## Cherrywork® Intelligent Maintenance & Operations

### Solution

- A streamlined , automated and efficient maintenance workflow solution with digitization
- **Mobility** for SAP PM functions like Notification, WO, TECO
- **Touchless processing**: Auto Post work order in SAP without manual intervention for all validated information
- **Checklist**: On the go data recording of Measurement Points and Counters for your Maintenance rounds and compliance check
- **Planning and Scheduling**: Create multiple plan versions and finalize most optimal one
- **Calibration Management**: Ease in operations to capture necessary data in both scenarios of internal and external stakeholders

### Outcome

- **67%** reduction in average time to find spare part, bin & qty
- **1 hour** reduction in efforts for closing work orders each lead per shift, reducing the overall downtime
